Dear Sir / Madam,

Subject: Smarten Enters Government Tender Market with Solar PCU Order; Expands Growth Opportunities.

Ref : Disclosure under Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("SEBI Listing Regulations").

Pursuant to Regulation 30 of the SEBI Listing Regulations, we wish to inform you that Smarten Power Systems Limited ("Smarten" or "the Company"), a leading provider of power backup and solar energy solutions, today announced the successful execution of a government tender order, marking a strategic expansion beyond its traditional channel-led business model.

The Company has commenced the supply of 4,000 Solar PCUs, aggregating to an order value of approximately ₹1.75 crore, pursuant to a government tender. This order marks the company's entry into the project and tender-based market, offering scale, enhanced revenue visibility, and repeat opportunities beyond its historically channel-led operations. Detailed information is provided in **Annexure A**.

As part of this project, Smarten Power Systems has not only supplied the solar power conditioning units but has also developed and deployed a proprietary remote monitoring software, enabling real-time performance tracking and system management.

This project execution is independent of the Company's regular distribution-led sales, highlighting Smarten Power Systems' growing capabilities in handling large-scale institutional deployments.

SMARTEN POWER SYSTEMS LIMITED

(Formerly known as Smarten Power Systems Private Limited)

Until now, Smarten's growth has been driven primarily through an exclusive focus on the channel market.

The successful delivery of this government order demonstrates the Company's operational readiness, product reliability, and compliance capabilities required for participation in institutional and public-sector projects.

This development follows our strategic distribution partnership with a major global battery manufacturer, strengthening its product offering and market presence.

None of the promoter/promoter group/group companies have any interest in the entity that awarded the order/contract. Further, the order/contract would not fall within the purview of related party transaction.

We request you to take the above on record.

About Smarten Power Systems Limited:

Smarten Power Systems Limited, incorporated in 2014 and headquartered in Gurgaon, is engaged in the business of power backup solutions, inverters, batteries, and solar products.

Smarten Power Systems manufactures a diverse product portfolio that includes:

- Home UPS systems (Bravo, Nova series) with smart charging, LCD display, and DSP control.
- Solar inverters/PCUs such as Superb & Trendy (MPPT technology for ~30% higher efficiency) and Saver/Shine/Boom (PWM technology).
- Batteries and solar panels, largely traded under the Smarten brand and sourced from reliable suppliers.

Smarten Power Systems Ltd remains committed to empowering a sustainable future by providing innovative and cost-effective energy solutions.

The company remains focused on evaluating opportunities across both channel-led and project-based markets, with an emphasis on disciplined execution, product quality, and sustainable growth.
